¹ Stay-only hotels are located near train stations, airports, business centers, major thoroughfares, shopping centers, and other areas of high customer traffic, these hotels service travelers primarily as places to stay at very attractive rates, without extraneous banquet facilities, etc.

² Appraisal value is as of May 1, 2016.

³ Acquisition price excludes incidental expenses such as property, city planning, and consumption taxes.

⁴ For further details, please refer to today's release "Issuance of New Shares and Secondary Share Offering."

⁵ Financing details will be announced when determined.

II. Acquisition Rationale

By taking full advantage of its sponsor Ichigo's deep value-add capabilities and executing upon Ichigo Hotel REIT's growth-driving action plans, Ichigo Hotel REIT is committed to maximizing shareholder value for Ichigo hotel REIT shareholders.

With today's ten hotel acquisitions, Ichigo Hotel REIT is more than doubling its portfolio size from JPY 20.4 billion to JPY 47.6 billion.² The acquisitions will be financed by the public-offering net proceeds, bank borrowing, and cash-on-hand. The growth in Ichigo Hotel REIT's market capitalization and shares outstanding via this public offering is expected to significantly improve Ichigo Hotel REIT's share liquidity.

Of the ten hotels, five have variable rent leases with the hotel operators (in which Ichigo Hotel REIT shareholders share in the upside/downside of higher/lower hotel rates) and five are fixed rent leases. The forecast average NOI yield of the acquired assets is 5.5% and the average post-depreciation NOI yield is 4.3%.³

Ichigo Hotel REIT believes that today's acquisitions will contribute both to Ichigo Hotel REIT's earnings stability via geographic and asset diversification and its ongoing earnings growth. The acquisitions of these ten stay-only hotels will also support the generation of core earnings stability for Ichigo Hotel REIT shareholders via fixed rent leases, while providing earnings upside via variable rent leases at hotels benefiting from overseas tourist demand and rising hotel rates in Tokyo, Osaka, Hokkaido, and Okinawa.

Ichigo Hotel REIT will continue to work to maximize shareholder value via the execution of its external and organic growth strategies and by leveraging Ichigo Group's strengths.

¹ Portfolio size is on an acquisition price basis. It does not include consumption tax or other expenses related to acquisitions (brokerage fees, taxes, and public charges).

² Average NOI = Total NOI (net operating income) of the ten assets divided by the total acquisition price of the ten assets, where NOI is the NOI derived from the Direct Capitalization Method (DCM) in the real estate appraisal report at acquisition.

³ Average post-depreciation NOI Yield is calculated as NOI plus depreciation divided by the total acquisition price of the ten assets, where NOI is the NOI derived from the Direct Capitalization Method (DCM) in the real estate appraisal report at acquisition. Depreciation is an estimated value calculated by Ichigo Real Estate Investment Advisors using the straight-line method.

III. Hotel Lease Status

(1) Hotels

No.	Hotel Name	Lessee
010	Nest Hotel Osaka Shinsaibashi	Nest Hotel Japan
011	Comfort Hotel Central International Airport	Greens Co., Ltd.
012	Smile Hotel Tokyo Asagaya	K.K. Hospitality Operations
013	Nest Hotel Naha	Nest Hotel Japan
014	Smile Hotel Asakusa	K.K. Hospitality Operations
015	Nest Hotel Matsuyama	Nest Hotel Japan
016	Hotel Livemax Nihombashi-Hakozaki	Live Max Inc.
017	Comfort Hotel Okayama	Greens Co., Ltd.
018	Comfort Hotel Kushiro	Greens Co., Ltd.
019	Comfort Hotel Suzuka	Greens Co., Ltd.

- (2) Date of lease contract change or succession: August 17, 2016 (Expected)
- (3) For details about lease terms, please refer to “Rent Overview” in IV “Asset Details.”
- (4) Lessees meet Ichigo Hotel REIT’s selection criteria set forth in the “Report on the Management Structure and System of the Issuer of Real Estate Investment Trust Units and Related Parties.” (Note: If Ichigo Hotel REIT is the lessee under a master lease contract, then the tenant refers to the sub-lessee.)

IV. Asset Details

Details of the acquired assets follow.

Notes to the Asset Details:

- 1) The names of the architect, builder, structural engineer, and inspection agency are those of when the building was built.
- 2) Forecast NOI is the difference between the operating revenues and the operating expenses of the asset for the initial year. NOI yield is calculated by dividing NOI by Acquisition Price. Amounts less than a million are rounded off.
- 3) The average post-depreciation NOI Yield is calculated as NOI (net operating income) minus depreciation divided by the total acquisition price of the ten assets. Depreciation is an estimated value calculated by IRE using the straight-line method.
- 4) Structure of a building refers to the structure mentioned in the real estate register. The following abbreviations are used with regards to structure: RC stands for reinforced concrete; SRC for steel reinforced concrete; F for number of stories; and B for basement.

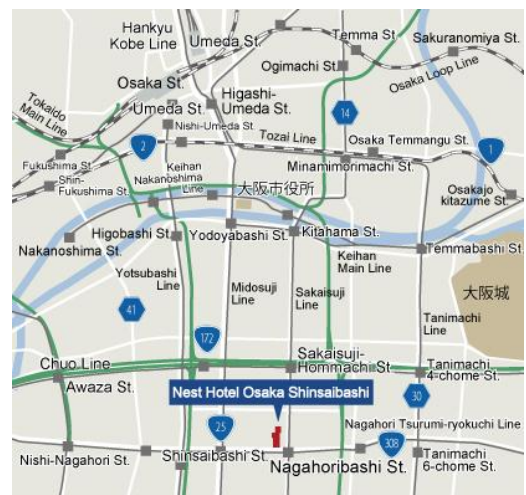

(1) Nest Hotel Osaka Shinsaibashi

(i) Location and Features

Rebranded as a Nest Hotel in 2014, this stay-only hotel is a 1-minute walk from Nagahoribashi Station on Osaka Municipal Subway's Sakaisuji Line and Nagahori Tsurumi-ryokuchi Line as well as a 6-minute walk from Shinsaibashi Station on Midosuji Line.

(2) Comfort Hotel Central International Airport

(i) Location and Features

This stay-only hotel is a 5-minute walk from Central Japan International Airport and a 3-minute walk from the Central Japan International Airport Station of Nagoya Railroad. The hotel is connected to the airport and the station via a walkway.

The airport has seen a rise in arrivals and departures by low-cost carriers in recent years. Located close to such a growing international airport, the hotel can serve a variety of customers – business travelers, tourists, and airport and airline staffers.

The hotel is expected to meet rising inbound tourism demand as it is situated at the base of the so-called “dragon tourism route” spanning the Chubu and Hokuriku regions.

The hotel has relatively spacious guest rooms – single-bed rooms of 20 square meters, double-bed rooms of 25 square meters, and twin-bed rooms of 25 square meters – so that it can meet the demands of both tourists and business travelers. All the rooms command a nice view of the ocean or the airport.

Special Items

1. Buttress-free concrete block walls, measuring over 1.2-meters high, are in place on the east, southwest, and southeast sides of the hotel premises. The engineering report indicates that the walls present no immediate problem.
2. The seller has agreed to rectify at the seller's expense the following issues described in the engineering report.
 - A. An air-conditioning refrigerant pipe penetrates through a ventilation louver installed in an area that could catch fire in case of a fire nearby. Thus, the louver fails to meet fire-protection requirements..
 - B. Eaves of over one-meter width are in place, even though those eaves don't appear to be a temporary feature.
 - C. A banquet room is divided into four sections by operable partitions, and the smoke ventilation is insufficient when the east-side banquet rooms are combined or all the four sections are put together.
 - D. The fuel injection pump of the emergency power supply is defective.
