Notes:

1. The above data are as provided by the hotel operators or as calculated by Ichigo Investment Advisors based on information provided by the hotel operators. The data have not been audited and thus its accuracy cannot be guaranteed and may not match data disclosed in future releases.
2. Revenue is revenue from accommodations and related services only. Rent from retail tenants at Hotel Vista Premio Kyoto, Chisun Inn Osaka Hommachi, and Smile Hotel Tokyo Asagaya is not included.

3. RevPAR (Revenue Per Available Room) is calculated with the following formula:  
$$\text{RevPAR} = \text{Total Revenue from accommodations (excluding restaurant charges and other service fees)} / \text{number of available guest rooms.}$$
4. Occupancy is calculated with the following formula:  
$$\text{Occupancy} = \text{Total number of guest rooms occupied during the period} / (\text{total number of guest rooms} * \text{number of days hotel was in operation during the period})$$

Occupancy may exceed 100% in the following cases: 1) a guest had pre-paid for a guest room but checked out early, allowing the guest room to be occupied by a different guest; or 2) a guest room is occupied for less than one day by different guests.
5. ADR (Average Daily Rate) is calculated with the following formula:  
$$\text{ADR} = \text{Total revenue from accommodations (excluding restaurant charges and other service fees)} / \text{number of guest rooms occupied during the period.}$$
6. Data for two hotels, Hotel Suave Kobe Asuta and Hotel Livemax Nihombashi-Hakozaki, are consolidated under Other, because the hotel operators did not provide consent to disclose hotel-specific data.
7. While Hotel Suave Kobe Asuta's lease contract includes a variable rent clause, it has never been triggered. Because Ichigo Hotel REIT does not anticipate receiving variable rent at this hotel, it has been classified as a fixed rent hotel.
8. Grandpark-Inn Yokohama acquired in March 2017 is excluded from the above data, because the hotel operator did not give consent to disclose hotel-specific data that would allow for year-on-year comparisons.

#### Explanation of Changes

Revenue, RevPAR, and Occupancy increased year-on-year at variable rent hotels, fixed rent hotels, and the total portfolio.

At variable rent hotels, which are a more significant contributor to Ichigo Hotel REIT's earnings, revenue and RevPAR increased at nine of the twelve hotels. Although the unavailability of some guest rooms at Smile Hotel Tokyo Asagaya and Nest Hotel Naha because of renovation work in June negatively affected results, this was more than offset by strong year-on-year increases at Hotel Wing International Nagoya, Nest Hotel Osaka Shinsaibashi and Smile Hotel Tokyo Asagaya, which had fewer available rooms last June because of renovations, and at Valie Hotel Tenjin which had experienced a decline in tourist demand after last year's Kumamoto earthquake.

### Value-Add Actions

Ichigo Hotel REIT completed the renovation work at Nest Hotel Naha announced in its April 2017 Operating Results release (May 25, 2017), converting a tenth-floor banquet space into five new guest rooms (two twin rooms and three triple rooms; forecast ROI 17.3%). These additional guest rooms will enable the hotel to capture more of Okinawa's increasing leisure demand during the summer peak season.

Ichigo Hotel REIT will continue to work closely with its hotel operator partners in carrying out value-add capex that drives higher earnings.

Twin Room

Triple Room
