Notes:

1. The above data are as provided by the hotel operators or as calculated by Ichigo Investment Advisors based on information provided by the hotel operators. The data have not been audited and thus its accuracy cannot be guaranteed and may not match data disclosed in future releases.
2. Revenue is revenue from accommodations and related services only. Rent from retail tenants at Hotel Vista Premio Kyoto, Chisun Inn Osaka Hommachi, and Smile Hotel Tokyo Asagaya is not included.
3. RevPAR (Revenue Per Available Room) is calculated with the following formula:
$$\text{RevPAR} = \text{Total Revenue from accommodations (excluding restaurant charges and other service fees)} / \text{number of available guest rooms.}$$
4. Occupancy is calculated with the following formula:
$$\text{Occupancy} = \text{Total number of guest rooms occupied during the period} / (\text{total number of guest rooms} * \text{number of days hotel was in operation during the period})$$

Occupancy may exceed 100% in the following cases: 1) a guest had pre-paid for a guest room but checked out early, allowing the guest room to be occupied by a different guest; or 2) a guest room is occupied for less than one day by different guests.
5. ADR (Average Daily Rate) is calculated with the following formula:
$$\text{ADR} = \text{Total revenue from accommodations (excluding restaurant charges and other service fees)} / \text{number of guest rooms occupied during the period.}$$
6. Data for Urbain Hiroshima Executive prior to its acquisition in August 2017 is not disclosed, because the hotel operator did not provide consent to disclose hotel-specific data.
7. Data for two hotels, Hotel Suave Kobe Asuta and Hotel Livemax Nihombashi-Hakozaki, are consolidated under Other because the hotel operators did not provide consent to disclose hotel-specific data.
8. While Hotel Suave Kobe Asuta's lease contract includes a variable rent clause, it has never been triggered. Because Ichigo Hotel does not anticipate receiving variable rent at this hotel, it has been classified as a fixed rent hotel.
9. Grandpark-Inn Yokohama is excluded from the above data because the hotel operator did not give consent to disclose hotel-specific data that would allow for year-on-year comparisons.

Explanation of Changes

Both variable rent hotels, which are a more significant contributor to Ichigo Hotel's earnings, and fixed rent hotels saw year-on-year increases in Revenue, RevPAR, and ADR, resulting in year-on-year increases in Revenue, RevPAR, and ADR for the total portfolio.

Driving these positive results were significant year-on-year increases in Revenue, RevPAR, and ADR at Nest Hotel Sapporo Odori, Nest Hotel Osaka Shinsaibashi, Valie Hotel Tenjin, and Nest Hotel Naha owing to the successful capture of increased inbound tourist demand and a better Golden Week holiday for domestic travel than last year.

Value-Add Actions

To reduce water consumption and costs, Ichigo Hotel has installed water-saving devices, including high-output, low-flow shower heads and water-regulated toilet tanks and faucets, at seven hotels, including Nest Hotel Sapporo Ekimae (forecast ROI 28.1%).

In addition, Ichigo Hotel has upgraded the main dishwasher in the banquet kitchen at Nest Hotel Matsuyama to a newer model that uses less than half of the water consumed by the existing model (forecast ROI 19.7%).

Ichigo Hotel will continue to work closely with its hotel operator partners to carry out value-add capex on behalf of guests and drive higher earnings.
