Notes:

1. The above data are as provided by the hotel operators or as calculated by Ichigo Investment Advisors based on information provided by the hotel operators. The data have not been audited and thus their accuracy cannot be guaranteed and may not match data disclosed in future releases.
2. Revenue is revenue from accommodations and related services only. Rent from retail tenants at Hotel Vista Premio Kyoto, Chisun Inn Osaka Hommachi, and Smile Hotel Tokyo Asagaya is not included.
3. RevPAR (Revenue Per Available Room) is calculated with the following formula:
$$\text{RevPAR} = \text{Total Revenue from accommodations (excluding restaurant charges and other service fees)} / \text{number of available guest rooms.}$$
4. Occupancy is calculated with the following formula:
$$\text{Occupancy} = \text{Total number of guest rooms occupied during the period} / (\text{total number of guest rooms} * \text{number of days hotel was in operation during the period})$$

Occupancy may exceed 100% in the following cases: 1) a guest had pre-paid for a guest room but checked out early, allowing the guest room to be occupied by a different guest; or 2) a guest room is occupied for less than one day by different guests.
5. ADR (Average Daily Rate) is calculated with the following formula:
$$\text{ADR} = \text{Total revenue from accommodations (excluding restaurant charges and other service fees)} / \text{number of guest rooms occupied during the period.}$$
6. Data for Hotel Livemax Nihombashi-Hakozaki are included in the total hotel and fixed rental hotel data above, but not separately disclosed because the hotel operator did not provide consent to disclose hotel-specific data.
7. Hotel Suave Kobe Asuta and Grandpark-Inn Yokohama are excluded from the above data because the hotel operators did not give consent to disclose hotel-specific data that would allow for year-on-year comparisons.
8. Pre-acquisition data for acquired hotels is based on data received from the previous owners.

Explanation of Changes

Variable rent hotels, which are a more significant contributor to Ichigo Hotel's earnings, fixed rent hotels, and the total portfolio all saw year-on-year increases in Revenue, RevPAR, Occupancy, and ADR.

Hotels generating significant year-on-year increases were Ichigo Hotel's two hotels in Sapporo, which continued to experience strong domestic demand post-September's earthquake; the Court Hotel Kurashiki, which had strong leisure demand, along with strong business demand driven by continuing reconstruction work from July's floods; the Valie Hotel Tenjin, which had strong leisure demand; and the Smile Hotel Tokyo Asagaya, where occupancy rebounded following completion of last year's renovations.

Value-Add Actions

Ichigo Hotel is renovating six double rooms and converting two suites on the tenth floor of the Nest Hotel Naha to capture growing leisure demand, following last year's conversion of a tenth-floor banquet room into guest rooms. Ichigo Hotel is optimizing room layouts to cater to guests traveling with family or friends, increasing the double rooms' occupancy from three to four guests and splitting each suite into two double rooms (forecast ROI 19.8%).

Ichigo Hotel will continue to work closely with its hotel operator partners to carry out value-add capex and drive higher earnings.
