Notes:

1. The above data are as provided by the hotel operators or as calculated by Ichigo Investment Advisors based on information provided by the hotel operators. The data have not been audited and thus their accuracy cannot be guaranteed and may not match data disclosed in future releases.
2. Revenue is revenue from accommodations and related services only. Rent from retail tenants at the Hotel Vista Premio Kyoto, the Chisun Inn Osaka Hommachi, and the Smile Hotel Tokyo Asagaya and rent from the banquet hall at the Nest Hotel Kumamoto are not included.
3. RevPAR (Revenue Per Available Room) is calculated with the following formula:

$$\text{RevPAR} = \text{Total Revenue from accommodations (excluding restaurant charges and other service fees)} / \text{number of available guest rooms.}$$

4. Occupancy is calculated with the following formula:

Occupancy = Total number of guest rooms occupied during the period /
(total number of guest rooms * number of days hotel was in operation during the period)

Occupancy may exceed 100% in the following cases: 1) a guest had pre-paid for a guest room but checked out early, allowing the guest room to be occupied by a different guest; or 2) a guest room is occupied for less than one day by different guests.

5. ADR (Average Daily Rate) is calculated with the following formula:

ADR = Total revenue from accommodations (excluding restaurant charges and other service fees) / number of guest rooms occupied during the period.

6. Data for the Hotel Livemax Nihombashi-Hakozaki are included in the total hotel and fixed-rent hotel data above, but not separately disclosed because the hotel operator did not provide consent to disclose hotel-specific data.

7. The Grandpark-Inn Yokohama is excluded from the above data because the hotel operator did not give consent to disclose hotel-specific data that would allow for year-on-year comparisons. The Hotel Wing International Kobe Shin Nagata Ekimae and the Valie Hotel Hiroshima are excluded from the Total and Variable-Rent Hotels data on page 1 because the previous hotel operator did not give consent to disclose hotel-specific data that would allow for year-on-year comparisons. The Hotel Vista Premio Kyoto, sold on October 31, 2019, is included in the above data.

8. Pre-acquisition data for acquired hotels are based on data received from the previous owners.

Explanation of Changes

Variable-rent hotels, which are the primary driver of increases/decreases in Ichigo Hotel's earnings, fixed-rent hotels, and the total portfolio saw year-on-year decreases in Revenue, RevPAR, Occupancy, and ADR.

October's massive Typhoon Hagibis (aka Typhoon No. 19) led to widespread guest cancellations. A significant decrease in Korean tourists also hit hotels in Sapporo, Kyoto, Osaka, and Naha particularly hard.

Value-Add Actions

Ichigo Hotel is working to minimize utilities expenses in cooperation with its hotel operator partners. By regularly reviewing and optimizing its contracts with utilities providers, Ichigo Hotel has successfully reduced its annual utilities expenses by JPY1.8 million. Ichigo Hotel is also working towards reducing energy consumption and its hotels' environmental impact by converting all lighting to LED and upgrading out-of-date power supply equipment.

Ichigo Hotel will continue to work closely with its hotel operator partners to carry out value-add capex and drive higher earnings.
